

Spectator Mode Commands:

Note: Make sure that spectator cheats are on.

Press either Keypad 9 or Backquote to open the command box. After writing in the code, press semicolon to enter the command.

Team1_[teamname] || Team2_[teamname]

Changes the name of the team to the new entered string.

Player[1-4]_[playername]

Changes the name of the player to the new entered string.

Timeadd_[seconds]

Adds the entered amount of seconds to the timer.

Loadscene_[scenename]

If a valid scene name is entered, the game is switched over to the new map.

Teamflag1_[isocode] || Teamflag2_[isocode]

Changes the team flag to the matching flag of the entered iso code. A list of available iso codes is available at the end of this document.

Watchreplay_[replayfile] (EXPERIMENTAL)

For use with sportsball demos, an experimental command that allows you to watch them.

Pause

Stops time and freezes the game.

Resume

Unfreezes the game and resumes time at normal speed.

Slowdown

Puts timescale down to 0.5.

Speedup

Puts timescale up to 2.

Dropbox

Drops a box at the location of the spectator camera.

Startreplay

Starts a replay as if someone had scored or knocked it out of the boundary.

Noclip (Experimental)

Turns noclip commands on & off.

Record (Experimental)

Starts recording a demo of the game.

Recordstop (Experimental)

Stops recording.

Final Note:

Spectator Mode is a highly experimental mode that:

- a) Requires at least two monitors to operate &
- b) Is not recommended for use with low end computers
